ILTA Grain Inc.-North Battleford, Saskatchewan

ILTA is pleased to announce the first shipments of railcars from the newly expanded North Battleford Rail plant. The ability to load and ship blocks of 50 railcars efficiently provides the ability to accept more local production and clean and export for growing world demand. Local grower support was a major factor in deciding to expand the facility and it provides significant opportunity to increase specialty crop production in the area. The cleaning and processing techniques installed during the expansion utilize the most advanced techniques and equipment to ensure shipment of high quality product to our end users.
