**ILTA GRAIN INC. – Belle Plaine, Saskatchewan**

ILTA today began construction of its 7<sup>th</sup> processing facility at Belle Plaine, Saskatchewan on 300 acres of land adjacent to CP mainline rail. Belle Plaine is in the heart of a major specialty grain production area and well positioned from a transportation perspective. The facility will have a 120 railcar loop track and will be similar to the new Saskatoon plant nearing completion. Infrastructure will support a high throughput grain terminal in the future in conjunction with the site.
